

rdp - Apache Guacamole (Remote Desktop Access)

Open this link <https://rdp.oculuszm.com/#/>

Log in with Google Authentication or with password pin sent to your email.

The screenshot shows the Cloudflare Access login interface. At the top is the Cloudflare Access logo. Below it, the URL 'oculuszm.cloudflareaccess.com' and the application name 'RDP - Apache' are displayed. The 'Sign in with:' section offers two options: a Google login button and a 'Get a login code emailed to you' option. The email option includes a text input field with 'example@email.com' and a blue 'Send me a code' button. At the bottom is the Cloudflare Zero Trust logo.
